

Dear Sir- I would like to file an objection to the decision to consider the Wood River and Franc Peak area for motorized recreation in the Shoshone NF land management plan. I have not previously commented before. I currently sit on the Wyoming State Trails Council, but I am commenting in the capacity of a private citizen. I am a state licensed outfitter and have guided hunters in Wyoming for over 40 years. This area is a world class roadless area with foot or horseback access only. I have discriminating clients from around the world who are willing to pay a lot of money to hunt areas such as this and they tell me that these areas are becoming harder and harder to find. Allowing motorized recreation or travel in this area would forever degrade and diminish these hunting opportunities, particularly for bighorn sheep. Hunting activity brings a lot of revenue into local communities. Please reverse this decision and maintain these areas as roadless and non-motorized, both for the current population and future generations. Thank you.

Sincerely,

Dave Clarendon WY BG#269
